Your Loved One Through the Years

Our staff is experienced in dealing with families who are going through the hard last days of life, or passing of a beloved family member

We will sensitively assist you in compiling a touching, heartfelt video and/or photo montage that will portray just what your beloved meant to your lives. This can be an important way of memorializing the person who means so much to you, giving comfort to your family and friends and helping your loved one's smile and presence live on in your lives.

Tribute Videos can be played in the foyer of the funeral home, presented as part of the service, or simply cherished by relatives and friends, allowing you to revisit the life of your loved one through the years..
